BEAUTY FOR ASHES Jute Tote Bag - our gift to you made by FreeSets Global.

There are an estimated 12.3 million people globally who have been stripped of their dignity through human trafficking. Trafficking occurs when powerful people coerce, abduct, or deceive the vulnerable in order to gain control and exploit them. It is modern day slavery.

Your Gift

Freeset is in business to counter this slavery—specifically, sex slavery. Millions of women and children are trafficked into brothels and placed on the street, forced to sell their bodies for the profit of the powerful. Only through a united, global effort can this be abolished.

Fight Human Trafficking!
